

Academic Strategic Planning
Annual Reports for Departments and Programs
2024-25
Graduates

Report Title

- 1 Graduates by Year by Major Department
- 2 Graduates by Year by Major Code
- 3 Graduates by Year by Major Department, by sex
- 4 Graduates by Year by Major Code, by sex
- 5 Graduates by Year by Major Department, by race/ethnicity
- 6 Graduates by Year by Major Code, by race/ethnicity
- 7 Graduates by Year by Minor Department
- 8 Graduates by Year by Minor Code

Notes to guide review and interpretation of the reports

- *Note: 2025 graduate counts are not yet final. Additional graduates may be recorded.*
- These reports show the number of students who graduated with majors in each department, annually for the last several academic years. A graduate with more than one major is counted once per major. Each major code is associated with a department.
- Sex refers to legal sex and is recorded by the registrar, usually based on information originally provided in the Common Application. A student may change their legal sex information with the Registrar's office. Students may be recorded with M, F, or X.
- Notes on dates: The registrar only ever records one of three graduation dates in a year: May (with the specific date of commencement used), August, and December. December grads are counted with the following May.
- Technical notes for each report are available below the graphs.
- The numbers in the PDF file and Excel file should match. If they do not, please notify IRAP.

Graduates from 2020 to 2025

By department/program of major

Department	Department code	Number of graduates					
		2020	2021	2022	2023	2024	2025*

Total - All graduates		303	239	207	207	170	256

- NOTES:**
- * 2025 graduate counts are not yet final. Additional graduates may be recorded.
 - Students are counted once per department. If a student has two majors in two departments, the student is counted once in each department. If a student has two majors in the same department (e.g. Creative Writing and Literary Studies) they are counted once in the row for that department.
 - Students who graduate in August are grouped with the May previous. Students who graduate in December are grouped with the May that follows. For example, a 2018 graduation year includes students who graduated in May 2018, December 2017, and August 2018. This definition of graduation year corresponds with the college's official graduation rates published in IPEDS or the Common Dataset.
 - Not all majors have been offered in every year shown. Students may graduate with a major that is not offered at time of graduation, if it was offered when they matriculated or declared. See course catalog or contact the registrar for details.

NOTES:

- 2025 graduate counts are not yet final. Additional graduates may be recorded.
- Students are counted once per department. If a student has two majors in two departments, the student is counted once in each department. If a student has two majors in the same department (e.g. Creative Writing and Literary Studies) they are counted once in the row for that department.
- Students who graduate in August are grouped with the May previous. Students who graduate in December are grouped with the May that follows. For example, a 2018 graduation year includes students who graduated in May 2018, December 2017, and August 2018. This definition of graduation year corresponds with the college's official graduation rates published in IPEDS or the Common Dataset.
- Not all majors have been offered in every year shown. Students may graduate with a major that is not offered at time of graduation, if it was offered when they matriculated or declared. See course catalog or contact the registrar for details.

Total - All minors earned				118	105	103	86	74	128
Total - All graduates with a minor				103	93	91	77	63	113

NOTES:

- * 2025 graduate counts are not yet final. Additional graduates may be recorded.
- Students with more than one major are counted more than once, once per major.
- Students who graduate in August are grouped with the May previous. Students who graduate in December are grouped with the May that follows. For example, a 2024 graduation year includes students who graduated in May 2024, December 2023, and August 2024. This definition of graduation year corresponds with the college's official graduation rates published in IPEDS or the Common Dataset.
- Not all majors have been offered in every year shown. Students may graduate with a major that is not offered at time of graduation, if it was offered when they matriculated or declared. See course catalog or contact the registrar for details.
