

Academic Strategic Planning
Annual Reports for Departments and Programs
2025-26
Course Enrollments

Report Title

- 1 Course Enrollment by Course Prefix by Year
- 2 Course Enrollment by Faculty Department by Year
- 3 All Domains Course Enrollment by Faculty Department by Year (T, U, B, A, or S)
- 4 Skills Course Enrollment by Faculty Department by Year (C, Q, W)
- 5 E Course Enrollment by Faculty Department by Year
- 6 LAP Course Enrollment by Faculty Department by Year
- 7 Capstone Course Enrollment by Faculty Department by Year
- 8 Student enrollments in courses by race/ethnicity/int'l for 2024-25

Notes to guide review and interpretation of the reports

- These reports count student enrollments are for an academic year and labeled by the fall of the academic year (e.g. 2025 represents the academic year 2025-26).
- A few notes about faculty department categorization:
 - Each faculty member, permanent and visiting, is assigned a departmental affiliation. Reports 2 - 7 report course enrollments by the faculty member's departmental affiliation, not by the course prefix. This means that courses cross-listed to another area, and courses such as AMP, all count in the line for the professor's primary department.
 - CSCI and MATH professors are all reported as MATH.
 - In the time period, only one professor had a departmental category of DSDA. They are re-categorized here as PHRL, because the one class they taught, as a visitor, was Data Ethics.
 - PART and THDA have not been combined. Current faculty have been updated to PART; faculty no longer teaching are mostly still categorized as THDA or TDMS.
- Technical notes for each report are available in the Excel version of this report. These technical notes are intended to answer questions about what is included and excluded from each report.
- The numbers in the PDF file and Excel file should match. If they do not, please notify IRAP.
