6   Graduates by Year by Major Code, by race/ethnicity
7   Graduates by Year by Minor Department *(updated 7 Dec 2023)*
8   Graduates by Year by Minor Department

Notes to guide review and interpretation of the reports
- These reports shows the number of students who graduated with majors in each department, annually for the last several academic years. A graduate with more than one major is counted once per major. Each major code is associated with a department.
- Sex refers to legal sex and is recorded by the registrar, usually based on information originally provided in the Common Application. A student may change their legal sex information with the Registrar's office. Students may be recorded with M, F, or X.
- Notes on dates: The registrar only ever records one of three graduation dates in a year: May (with the specific date of commencement used), August, and December. December grads are counted with the following May.
- Technical notes for each report are available in the Excel version of this report. These technical notes are intended to answer questions about what is included and excluded from each report.
- The numbers in the PDF file and Excel file should match. If they do not, please notify IRAP.

NOTES:
- Students are counted once per department. If a student has two majors in two departments, the student is counted once in each department. If a student has two majors in the same department (e.g. Creative Writing and Literary Studies) they are counted once in the row for that department.
- Students who graduate in August are grouped with the May previous. Students who graduate in December are grouped with the May that follows. For example, a 2018 graduation year includes students who graduated in May 2018, December 2017, and August 2018. This definition of graduation year corresponds with the college's official graduation rates published in IPEDS or the Common Dataset.
- Not all majors have been offered in every year shown. Students may graduate with a major that is not offered at time of graduation, if it was offered when they matriculated or declared. See course catalog or contact the registrar for details.

NOTES:
- Students are counted once per department. If a student has two majors in two departments, the student is counted once in each department. If a student has two majors in the same department (e.g. Creative Writing and Literary Studies) they are counted once in the row for that department.
- Students who graduate in August are grouped with the May previous. Students who graduate in December are grouped with the May that follows. For example, a 2018 graduation year includes students who graduated in May 2018, December 2017, and August 2018. This definition of graduation year corresponds with the college's official graduation rates published in IPEDS or the Common Dataset.

Total - All graduates with a minor		**108**	**140**	**103**	**93**	**91**	**77**

NOTES:
- *Students are counted once per department. If a student has two minors in two departments, the student is counted once in each department. If a student has two minors in the same department (e.g. Spanish and Japanese) they are counted once in the row for that department.*
- *Students who graduate in August are grouped with the May previous. Students who graduate in December are grouped with the May that follows. For example, a 2018 graduation year includes students who graduated in May 2018, December 2017, and August 2018. This definition of graduation year corresponds with the college's official graduation rates published in IPEDS or the Common Dataset.*
- *Not all minors have been offered in every year shown. Students may graduate with a minor that is not offered at time of graduation, if it was offered when they matriculated or declared. See course catalog or contact the registrar for details.*
